

WEEKLY UPDATE

June 5, 2020

Dear Residents and Families/Representatives,

As we approach summer and states are starting to reopen slowly, we want you to know that the staff at the Pavilion at Glacier Valley continues to work hard to prevent further spread of COVID-19 in our facility.

As of today, we have had 26 residents and 11 employees test positive for COVID-19. Seven of those residents have transferred from the COVID-19 Unit to our Transitional Care Unit, and most of our employees have already returned to work. Our employee screening, ongoing education, and continuous facility deep cleaning efforts continue to be a regular part of our day, several times a day.

In addition to the increased safety precautions we have previously reported, we have a dedicated COVID – 19 Unit and a Transitional Care Unit (also called our Step-Down Unit) for residents that have tested positive for COVID-19. These separate units are staffed with dedicated employees who only work on these units; one or the other, not both. We are well stocked with PPE (masks, gowns, gloves, etc.) so our staff can safely care for our residents. We are committed to seeing the number of positive cases in our facility decrease and we will continue to work with our federal, state and local health officials to protect our residents and staff to stop further spread of this virus.

Please to check our website for updates. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly 262-297-6300.

Sincerely,

Dawn Gordon
